---

## **Roane County Commission hostile takeover of Roane County Solid Waste Authority**

Seems RC Commission is moving to disrupt efforts to make recycling operations financially sustainable long term. This is either a negligent power grab, or a setup to pillage RCSWA resources for RC Commission use. Please contact the RC Commission, demand Andrew Corkrean and Jennifer Randolph resign from RCSWA, and that recycling be left alone.

### **Threat to Recycling Center operation**

Soon, expect slowed and problematic operations, and cutbacks. Later there will be false claims recycling is unsustainable, expect sharp cuts or end to recycling after REAP grant end on 2/28/21.
